Tools: Notion, Jira, Yandex Tracker, Figma, WordPress, Tilda, HTML/CSS, UniSender, Asana, Adobe InDesign, Adobe Illustrator, Adobe Photoshop, Codex, Gemma

EXPERIENCE

UX Writer, Shulman_pro

Full-service creative studio, remote, 2025 – present

- Developed the page structure for three e-commerce websites using UX principles and prototyping, building a consistent flow of information across the key user journeys
- Developed a landing page for a new product category on an e-commerce project, built the prototypes in Figma and prepared the content, supporting a successful market launch for the category
- Developed a landing page presenting a client's laboratory, built the prototypes in Figma and prepared the content, helping the company present its technological expertise through a clear customer journey and strengthening brand perception
- Developed an interactive moodboard for a furniture manufacturer's website, structuring the materials library and the scenarios for using it, making it easier for designers to select and visually compare materials

Lead Editor, [Chistetika](#) / [Souz-M](#)

Two brands, interior textiles, e-commerce, B2B and B2C, remote, 2024 – July 2026

- Set up the process for producing material for the websites, email communications, brand channels, print and presentations, giving the content a single standard of quality and style across every channel
- Developed the editorial policy and a knowledge base in Notion, including tone of voice, terminology and the review process, which made information easier to find and the editorial process more consistent
- Compiled a full guide to the client's technologies, systematising complex information about the product line to create a single source of knowledge for marketing and a practical tool for the office when working with dealers and end customers
- Created and maintained content plans, organising tasks and materials by channel, holding content consistent as the volume of editorial work grew
- Mentored two writers and introduced AI tools into the daily editorial process to speed up content work
- Developed trigger-based email sequences as a staged onboarding, structuring the communication around the stages of the user journey, and generated over 150 qualified leads in the first three months

Learning Platform Editor, [Skillfactory](#)

EdTech platform, remote, 2021–2024

- Edited and published learning content for the platform, working to unified editorial requirements and checking material before publication, maintaining content quality for an audience of 100,000+ learners
- Developed a template system for 50+ courses, standardising the structure and presentation of materials and tripling content production speed
- Supported content development for two MIPT master's programmes across four semesters, gathering and clarifying information from faculty and subject matter experts, and ensuring complex learning material was presented clearly and consistently
- Worked with the editorial and technical requirements for learning materials, identifying discrepancies and passing fixes on as tasks, reducing the number of errors before publication

Writer, Editor and Designer, [“K!” film magazine](#)

Independent print publication, Saint Petersburg, combined print run 1,500+ copies, 2021–2026

- Wrote and edited pieces on culture and researched topics for publication
- Edited colleagues' writing to unified editorial requirements, for consistency and a high standard of publication
- Laid out and saw two issues through to print, responsible for layout, typography and prepress, covering the full production cycle of the publication
- Designed and laid out the Institut Français / MyFrenchFilmFestival catalogue

SELECTED PROJECTS

Website Editor, [“Message to Man” International Film Festival](#)

2026

- Edited and restructured the festival website, organising information about the programme, submissions and events, and making the key journeys clearer for different user audiences
- Wrote and edited copy for festival audiences and participants, adapting organisational information to specific user tasks and making the site’s material easier to work with

Print Designer, Nosorog Publishing House

2026

- Designed and laid out one edition, working with typography and publishing requirements to prepare the book for print

Copywriter, ChikoRoko

Digital art platform, international audience, 2022

- Wrote 200+ content descriptions in English, working to unified structure and style requirements, and delivering a large body of material consistently for an international audience

EDUCATION

Ural Federal University (2014–2023)

BA in Linguistics (2018), MA in Political Philosophy, English-language programme (2020), PhD studies in Philosophy (completed without dissertation defence, 2023)
